

Little Falls Education Foundation

To support and enhance educational excellence in the Little Falls School District

The Little Falls Education Foundation is pleased to announce that it is accepting proposals for Innovation Mini-Grants to fund new and inventive projects in the Little Falls Public Schools. The program is designed to provide staff members with the opportunity to design, plan, implement and evaluate activities to:

- Facilitate Student Development
- Encourage Excellence through Creative Learning
- Promote Community/School Partnerships

Grant Procedure:

Grant applications may be submitted for a maximum of \$500. Please see the application form for the deadline due date. The Foundation Grant Review Committee will meet to review all applications.

Please highlight a project category. The possible categories include instructional materials, professional development and technology. There is also an “other” category and we certainly encourage any innovative “other” categories you feel will benefit your students

Once applications have been submitted, they will be reviewed. Each proposal will be recommended to the Board of Trustees for funding, returned with suggestions for resubmitting, or declined. Upon approval of the Board of Trustees, funds will be provided for the project. There is no predetermined total dollar amount or number of Innovation Grants to be funded. Each proposal is evaluated on its own merits. The recipients for this round of Innovation Mini-Grants will be announced in November. Projects can begin immediately after notification or at a later date. Funds must be expended by the end of the 2015-2016 school year.

If you have any questions regarding the Innovation Mini-Grants program, please e-mail- info@littlefallseducationfoundation.org Applicants should review and complete the “Grant Application Checklist” prior to submitting their grant proposal.

The Little Falls Education Foundation looks forward to hearing from each recipient about the successes of their grant. It would be appreciated if all recipients could find a meaningful way to reflect on their project and share the overall results of their innovative ideas with the Foundation!
